

DEDICATED TO STRENGTHENING MICHIGAN MANUFACTURING

WHO WE ARE

For more than 30 years, Michigan Manufacturing Technology Center (MMTC) has supported the stability and competitiveness of Michigan's 12,000+ small and medium-sized manufacturers. With five offices serving the entire state of Michigan, MMTC is the Michigan representative of the MEP National Network™. The MEP National Network is a public-private partnership designed to fuel growth and innovation among U.S. manufacturers.

WHAT WE DO

MMTC leverages our team of industry experts to provide training and consulting services to Michigan manufacturers to ensure the state's manufacturing base remains resilient, competitive and innovative.
