

CONNEX Profile User Roles

This list includes all potential roles available to a registered user in the CONNEX Platform.

Organization Level Roles – These permissions apply to any account record, manufacturer, or researcher, registered as a platform user.

- **Owner** – This *system assigned* role applies to the first CONNEX User to claim an organization's profile. This allows the user to control 100% of the organization's use of the CONNEX Platform. This user can extend invitations to others to help manage their account and use of the platform. This includes people inside and outside of their organization.
 - Add/Invite users
 - Conduct searches
 - Create/View supply chain
 - Manage paid subscriptions
 - Post/Respond to exchange center
 - Update the company profile
- **Administrator** – This *owner assigned* role includes all the above functionality of the owner.
- **Profile Editor** – This *owner assigned* role allows the user to:
 - Conduct searches
 - Update the company profile
- **Profile Viewer** – This *owner assigned* role allows the user to:
 - Conduct searches
 - See, but not edit, the company profile data including any hidden details.

Manufacturer Specific Roles – These permissions apply to registered Manufacturing users that have been assigned this role by the account owner. Users will not be able to see or manage your profile unless you assign them one of the profile roles outlined in the organization level roles.
