LEADERSHIP / CULTURE

Manufacturing Skills Development

September 1-2, 2020 | \$995 | CEUs: 1.4

Designed for students who are new to manufacturing, Manufacturing Skills Development will provide a foundational understanding of the processes, approach and culture needed to run an effective and efficient operation. The course covers quality management systems, problem solving, Lean manufacturing, culture and motivation.

Supervisor Skills

September 8-9 & 15-16, 2020 | \$975 | CEUs: 2.8

Gain the skills to thrive in today's management environment. Learn how to identify:

- Various leadership styles
- Different behavioral characteristics and determine the best method of relating to each
- Communication barriers and techniques to enhance communication

Practical Approach to Project Management

October 20-22, 2020 | \$1,800 | CEUs: 2.1

Learn the fundamental tools to effectively manage and complete projects. Whether you are a newly assigned project manager or have been in the field for years but want to strengthen your approach, this course is for you. This class is ideal for general/plant/project managers, engineers, and quality, supply chain and I.T. personnel.

LEAN PRINCIPLES & TECHNIQUES

A3 Problem Solving

September 22, 2020 | \$295

Participants will use problem-solving tools to assist in the continual improvement process with special emphasis on creating and implementing a Lean business strategy. An exercise in creating and understanding an A3 report is included.

Error Proofing/Poka-Yoke

September 22, 2020 | \$295

Error proofing is essential to running a smooth operation, cost savings and maintaining sanity in the workplace. Best practice examples are introduced regarding how companies prevent errors or defects.

QUALITY MANAGEMENT

Core Tools: APQP, PPAP & FMEA

September 17-18, 2020 | \$795 | CEUs: 1.4

Gain an understanding of the planning, launch and validation of new products or processes. This course blends APQP, PPAP and FMEA and guides participants through the launch process.

ISO 14001:2015 Internal Auditor

September 29-30, 2020 | \$795 | CEUs: 1.4

This course covers ISO 14001:2015 elements and standards, how to diagnose conformances and non-conformances, details of the audit process, measures for implementing corrective action, steps for conducting an audit, and more.

ISO 9001:2015 Internal Auditor

October 6-8, 2020 | \$995 | CEUs: 2.1

Learn how to conduct internal quality audits. Emphasis is placed on effective auditing processes and techniques. Participants will be instructed in developing an audit plan and the audit report required for management review. Corrective and preventive action will be reviewed.
